PROFILE

I am an architect with five years of experience, who has transitioned into Full Stack Web Development. My journey began with an intensive bootcamp at the University of Toronto, driven by a passion for technology and the digital world. This experience equipped me with the skills to create robust web applications, blending my architectural background with cutting-edge web development. My problem-solving and design thinking, enriched by this career shift, now focus on developing technically proficient and aesthetically appealing digital solutions.
